

*Warm welcome...
to our Green Hotels*

Preface

Neo-tourism should be eco-friendly.

Nature never remains stationary.
We should not neglect nature.

Tourism is instrumental in broadening our horizons and creates ideal opportunity to make reciprocal discoveries and exchange of lifestyle and culture. Previously, people sought out happiness through tourism aimed at totally abusing nature regardless of remedial measure for the deteriorating environment. Nowadays, if we travel and care about safeguarding the environment or protecting nature of various places, such behaviour may alleviate global warming that we confront as a result of human race's threat to nature.

With worldwide reputation as tourist's paradise and the aim of encouraging the sustainable tourism and conservation of the environment, The Tourism Authority of Thailand (TAT) has formulated the policy to promote conservation of tourism resources leading to 7 Green concepts:

- Green Hearts
- Green Logistics
- Green Attractions
- Green Community
- Green Activities
- Green Services
- Green plus

Moreover, the TAT has compiled in this Green Hotel Directory in Thailand 2009 the comprehensive list of top hotels in Thailand that meet the required standards in the protection of the environment, under supervision of the Green Leaf Programme established by the Green Leaf Foundation.

The goal of leisure travel may not lie
in only a splendid hotel, but such a
place should favour the perennial
coexistence of human race with nature
and the environment.

Hotel that have received Green Leaf Award.

Hotel that have received Thailand Tourism Award.

Green Hotel

All the hotels that reach the environment management standards embracing the energy consumption as well as the sparing and eco-friendly use of natural resources must obtain the qualified approval in the following areas:

- Policy and measures relating to the environment
- Waste management
- Efficiency in energy and water use
- Procurement
- Air quality in the building
- Air pollution
- Noise pollution
- Water quality
- Storage, use and management of fuel, gas and poisonous substances
- Ecological impact
- Interaction with the communities and local authorities

It is worth stating that all the ranking hotels which have been presented with the Green Leaf Certificate have the proven capability for managing the hotel environment. The initiative for giving this award has been undertaken in the framework of the Green Leaf Programme organised by the Green Leaf Foundation established on 17 March 1998 by the alliance of six main partners sharing a common vision for the development of tourism and hotel industry, namely the Tourism Authority of Thailand (TAT), Thai Hotel Association, United Nations Environment Programme, Regional Office for Asia and the Pacific (UNEP/ROAP), Demand Side Management Office, The Electricity Generating Authority of Thailand (EGAT), Environment Quality Development Association and the Metropolitan Waterworks Authority on behalf of the Board of Environmental Promotion of Tourism Activities (BEPTA)

Green hotel Tips

Turn off your air conditioning for an hour before come out, you can cut the green house gases emission

The receptionist should be show their traditional dress to save the energy from air conditioning system and represent their own culture

Replace energy efficiency light bulb (warm white) to save energy from lighting and reduce heat elusion of lighting system

Open the door and window when room maid clean up the room, you can cut CO₂ emission

Do not serve the glass of water in function room, please provide a bottle of water you can save water and save energy

1°C from the air conditioning system will emit CO₂ more than normal

A radiant smile and the ties of friendship of local folks help embellish tourist destinations. Pleasant environment will make the planet sustainable.

The charms of nature will endure as long as we make a concerted effort to conserve it.

Thank-you message

The TAT would like to convey its hearty thanks to such special guests like all of you who have seen the sights of Thailand and have made a joint effort to protect nature and the environment. We say so because everyone will play a part in allowing our planet to survive. Only if each of us joins together to think green, the environment and our planet will turn brighter than ever because the planet's future is in our grip.
